

PING

G430 IRONS

7-10 YARDS LONGER

Thinner face, lower CG for up to 2+ mph ball-speed increase

Custom-engineered lofts for controlled distance

Multi-material cavity badge improves feel

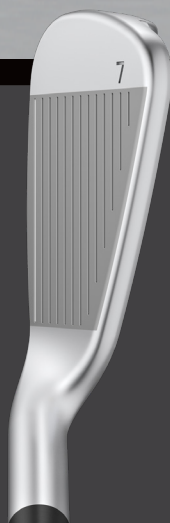

Tungsten toe and shaft tip weights ensure forgiveness

Hydropearl 2.0 chrome finish for consistency in wet conditions

SHAPED FOR SUCCESS

Clean look with shorter hosel helps lower the CG and align it with the force line to increase ball speed and ensure solid impact, especially low on the face.

PUREFLEX

Seven flex zones allow for more free bending to increase ball speed across the face for longer results with a solid feel and pleasing impact sound.

FORGIVING SOLE DESIGN

Approximately 1° additional bounce throughout the set ensures clean turf interaction and pure strikes, minimising "heavy" shots that come up short.

2+ MPH FASTER FACE

Hyper 17-4 stainless steel strengthens the face, allowing for more face flexing that generates increased distance and a higher max height to hold shots on the green.

MORE DISTANCE. BETTER GAPPING.

CUSTOM-ENGINEERED LOFTS

Stronger lofts across the set resulted in the addition of a 41° PW to ensure proper gapping options and allowed for standard lofts in the traditional scoring wedges (45.5°, 54°, 56°, 58°).

	STANDARD	RETRO SPEC	POWER SPEC
4-IRON	19.0°	20.0°	18.0°
5-IRON	22.0°	24.0°	21.0°
6-IRON	25.5°	27.5°	24.0°
7-IRON	29.0°	31.0°	27.5°
8-IRON	33.0°	34.5°	31.5°
9-IRON	37.0°	38.0°	36.0°
PW	41.0°	41.5°	41.0°
45	45.5°	46.0°	45.5°
50	50.0°	50.0°	50.0°
54	54.0°	54.0°	54.0°
58	58.0°	58.0°	58.0°
