

STEALTH²

PLUS DRIVER

FEATURE	BENEFIT
NEW 60X CARBON TWIST FACE	Building on the speed producing success of the original 60X Carbon Twist Face that optimized energy transfer for fast ball speeds, the new face design in Stealth 2 features an advanced version of Inverted Cone Technology (ICT) to help maintain ball speed on off-center strikes and increase forgiveness. It weighs 24g (2g lighter than the original Stealth face) and is designed to have an expanded COR area for a larger sweet spot and boosted performance across the entire face.
CARBON REINFORCED COMPOSITE RING	The Carbon Reinforced Composite Ring unites the driver head into a singular force and frees up additional mass that has been strategically placed to deliver more forgiveness.
DESIGNED FOR SPEED AND FORGIVENESS	The corrective tendencies of Twist Face™ combined with advanced ICT help maintain ball speed and accuracy on off-center strikes. A lightweight full-carbon body allows engineers to harvest mass and strategically place weight for optimal launch and forgiveness.
NANOTEXTURE COVER	The 60X Carbon Twist Face is encased by a polyurethane cover, featuring a revolutionary nanotexture technology. The nanotexture cover is used to fine tune launch and spin to optimize total distance regardless of playing conditions.
ASYMMETRIC INERTIA GENERATOR	The Inertia Generator remains the foundational source of refined aerodynamic properties. The result is a slippery-fast head shape that aids in swing speed generation on the downswing for golfers at every level. It is outfitted with a 15g rear weight to optimize MOI and forgiveness.
SLIDING WEIGHT TRACK	Weight savings from the 60X Carbon Twist Face and full body carbon construction allowed for the use of a 15g sliding weight. It is designed to help golfers control shot shape by shifting mass on the sole to create the desired ball flight.
THRU-SLOT SPEED POCKET	Our flexible Speed Pocket™ design is engineered to maximize ball speeds and produce additional forgiveness on low-face strikes.

LAUNCH AND SPIN	FLIGHT BIAS
Mid-Launch / Low Spin	Adjustable
SHAFT (MIDFLIGHT)	SHAFT (LOW FLIGHT)
 Mitsubishi Kai'li Red 60 (X, S)	 Project X Hzdus Black (Gen4) 60 (X/6.5, S/6.0)
GRIP	
 Golf Pride Z-Grip Plus2 Black/Red 0.600 52g	

CLUB	LOFT	HAND	LIE	VOLUME	LENGTH	SW
